Re: Wyman Village

Dear Sharon,

The Foxborough Fire Department has revisited the permit application for Wyman Village off Community Way and we approve it as submitted but with a couple of concerns. The hydrant spacing looks fine, however, in taking another look at the street widths, we are concerned due to the size of fire apparatus. The other question we have is if there is any way a second access road to the property can be created.

Finally, as always, please make sure that any fire protection contractors coordinate with the Fire Department and Building Department at all times.

Please feel free to contact me if there are any questions or concerns as the project starts developing.

Sincerely,

Steven M. Bagley  
Deputy Fire Chief
