NOTICE

From the Foxborough Water Department

Beach Street

Last fall, the Foxborough Water Department contracted with Onyx Corporation to clean and line the 12" water main on Beach Street. The 8" water main will soon be taken out of service. Beginning Tuesday March 19, 2019, Onyx Corporation will begin transferring any remaining water service connections to the newly lined 12" water main. The service will be replaced from the water main to the curb stop.

This is a major project for our department, as it will move all water services to the larger, newly lined 12" water main. The project will be disruptive to traffic, so please plan accordingly. The contractor will begin working from Mechanic Street, and work towards North Street.

When a house service is replaced, there will be a temporary loss of water, lasting from 1 to 4 hours. The contractor will work to leave a notification the day before a service will be worked on; however, this can change day to day.

The contractor will work to minimize this disruption.

Contact for Onyx will be Reggie Doherty at (978) 870-6539.

Questions may also be directed to the Water Department at (508) 543-1209.

We apologize for any inconvenience this may cause, and thank you for your patience.
